WELCOME TO BOWEN

Welcome everyone to our 31st Annual Bowen bull sale.

We hope this welcome season change is supporting everyone. It certainly has been a turbulent year in weather – we had floods in August then the tap turned off.

Our cattle market has remained very resilient given the late summer autumn cattle numbers presented for sale. Market analysts are forecasting an improving market trend into 2027 - The world is short of protein.

There is certainly a gap in the market for the top end culinary focused beef production.

Please inspect our website for Bowen Genetics research of the last 7 years into meat eating quality traits. Professor Aduli has identified SNP's that are directly related to Marbling, Fat Melting Point and Omega 3 acid profiles. We are pursuing these traits, without compromising livestock performance in the paddock or on the scales.

Recently Bowen had 94 of the 628 steers in the contemporary pen at the Teys feedlot Condamine, Qld from December 2025 to March 2026. The feedback recently received has been very impressive. The steers from Bowen had on average a 9.5kg heavier carcass weight, higher daily weight gain, higher MSA score, lower ossification on average by 26 points & 1% higher lean meat yield.

The Bowen Hereford steers gained up to 2.8kg per day. Bowen's nett feed efficiency was impressive. For the overall contemporary group of 628 steers to gain 1kg of body weight the average consumed was 6.587kg of feed. The Bowen steers within this group consumed on average 6.153kg of feed to gain the same 1kg of body weight.

Congratulations to the Newbury Family – Kamara Grazing were awarded the overall individual Grand Champion at the Bindaree Food Group feedlot trial and carcass competition in Inverell. He was the son of a Peakes Bowen Black Pearl bull purchased at the Bowen bull sale.

Great results for long time clients the Cabot Family of Doonba Pastoral Co, Barraba who sold the top priced pen of Steers at the Tamworth early bird sale in March. The line of 72 Peakes Bowen Angus blood steers averaged \$1960 to top the weaner section of the day.

Congratulations to the Paterson family of Heart Angus Stud on the success of their female sale held in April. Top-priced heifer Heart Bara W1 sold to Banquet Angus Stud, Victoria, for \$34,000. She was sired by Peakes Bowen Black Pearl P645, purchased for the top price of \$28,000 at the 2020 Bowen Bull Sale. The second top-priced heifer, Heart Dolly W75, sold to Knowla Livestock, Gloucester, for \$22,000. Her dam, Heart Dolly T122, was also sired by Peakes Bowen Black Pearl P645.

Congratulations to Kierin and Nikki Martin of Kianma Poll Hereford Stud, breeders and exhibitors of Kianma Matchless R010, which was awarded Grand Champion Hereford Female at the 2026 Sydney Royal Show in April. The Matchless family continues to perform at the highest level and traces back to the renowned Bowen Matchless L140. She was a leading donor cow for Richard and Loraine Moteby of Rilo Park Poll Herefords and produced many champions and high-selling progeny.

Peakes Bowen Angus sale bulls have a variety of sire lines on offer with Landfall Signature S1755, Milwillah Powerpoint R318, Milwillah Identity P134, Peakes Bowen Regal Focus P746, Dunoon Prime Minister P758, TeMania Qarrara Q514, TeMania Qountdown Q1290 & the first line of sons from Peakes Bowen Everest S557.

Bowen Poll Hereford sale bull selection includes our first sale bulls sired by Mountain Valley Sea Biscuit S114, Bowen Soloman S009, Melville Sam P469 & Bowen Porter P259. Also, sons of Tobruk Southern Cross S015, Yavenvale Quuger Q538.

We individually assess each bull that we select to in our annual bull sale, focusing on fault free structure, growth, doing ability, temperament, pedigree and data ratings. We want the bulls we sell to be able to go out and perform & have longevity for the buyer.

All bulls have been fully vaccinated including - tick vaccination. Semen & morphology testing has been conducted by Brendan Coonan – Northern Artificial Breeders.

The feed history of the 2026 Bowen Bull Sale bulls – weaned in May 2025 onto a mixed feed ration at Barraba then trucked to Gunnedah onto grazing oats, in early summer they were moved onto subtropical pastures. As the season continued dry, they were then supplemented onto light mixed feed ration of straw, silage, barley & canola meal on which they have continued.

All bulls will be videoed and displayed on our website and Auctions Plus.

Everyone is welcome to our pre-sale Open Day on Thursday 18th June 2026. We will have all sale bulls on display at 'Bowen' sale complex from 10am-3.30pm.

If you would like to inspect our sale team at any time, please contact us to arrange a time. We look forward to seeing you.

Stephen, Jodi, Roz, Nick, Kim, Josh & Stacey Peake

**All registered
bulls in this
catalogue have
Genomic enhanced
data evaluations &
have been verified
to their sires.**

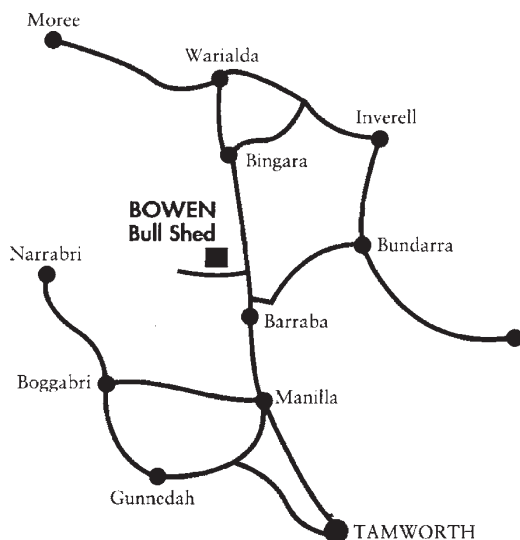

DETAILS

DIRECTIONS

Bowen is situated 18 kms North of Barraba.

Approximately 11 kms North of Barraba on the Barraba/Bingara Road. Turn off to the West at the forest road sign and Bowen Mail Box. The Bowen Bull Shed is on the right after the 5th ramp. 18 kms from Barraba.

The airstrip is 1.6 kms South West of town. Existing effective length 3000 ft. Bearings: 20o 30 minutes West of North.

INSURANCE

There is no Vendor Insurance on Sale Bulls.

It will be the responsibility of the purchasers to insure their cattle. Representatives from Insurance Companies will be at the sale and can offer insurance terms on sale bulls.

REFRESHMENTS

Morning tea and lunch will be available. A donation to the Bingara Westpac Helicopter Support Group would be appreciated.

SEMEN COLLECTION

Bowen Pastoral Co. reserves the right to collect semen for within herd use from any of the bulls in this year's catalogue. This will be done at the vendors expense and the purchasers convenience.

BULL VIDEOS

Bull video's will be available on our website: www.bowenstud.com.au, Auctions Plus and BJS Livestock Photography YouTube channel.

Please bring this catalogue to the sale to be sure of having one.

THE STORY OF BOWEN - STUD HISTORY

Bowen Poll Hereford Stud was established by Stuart & Ros Peake in 1963, being run along side a merino enterprise on property "Bowen" at Barraba in Northern NSW.

The Poll Hereford cow herd gradually expanded to 250 cows. Showing at major events & multi-vendor sales were the platforms for advertising and selling our product at the time.

In late 1980's Stuart and Ros progressed with bringing son Stephen into the operation with a hands on approach to management of the operation. Stephen's wife Jodi shares a passion for stud breeding, growing up on her parents Ken and Robyn's -Kenya Poll Hereford Stud. Both Stephen and Jodi had worked at various times on cattle operations in New Zealand, USA and Canada. Gaining valuable knowledge and experience of the cattle industry.

After working in the USA a decision was made to establish an Angus stud in 1995. At this time the wool industry was at an all time low and the flock of merinos were dispersed allowing more time to concentrate on the cattle enterprise.

Stephen and Jodi initiated their first on property Bowen bull sale in 1995 selling 30 Poll Hereford Bulls. The sale has continued annually on the 3rd Thursday in July, growing to the offering in this year's catalogue. The client base has grown over the years with 95% of the bulls going to repeat buyers, selling to most states of Australia.

Bowen Bull Sale – Bowen Poll Herefords have continually topped on property bull sales nationally for many years, with 2021's bull sale breaking the Poll Hereford bull sale average nationally.

Peakes Angus average being in the top end of on property sales averages nationally. 2021 results in Peakes Angus being in the top 5 Angus bull sales nationally.

Sons Nick and Josh with their wives Kim & Stacey, have joined the operation. Now involved in all parts of management, with a keen eye for stock and a love for agriculture. Both Nick & Josh have spent time in Canada on beef cattle operations.

We have expanded operation to include the property 'Uralba' at Emerald Hill. This has allowed younger stock to be off "Bowen" for the winter months and grow more hay and grain for our fodder reserves.

Originally the stud breeding aim had been to source the best sires available in the eastern states of Australia. With modern technology, genetics are now sourced world wide for sires that tick a multitude of boxes for structure, performance, carcass and maternal traits.

The worlds appetite for protein is growing rapidly.

With the ever increasing costs of production there is a need to focus on bloodlines that produce superior eating quality traits. The stock must also have yield, be efficient converters and excel in all traits previously mentioned.

The endeavor is to provide our client base with a product that can access a more lucrative markets. With the emphasis on the end user to drive demand.

TAKING DELIVERY OF YOUR NEW BULL

To help your new bull or bulls settle into their new home as well as possible, we recommend the following:

All Bowen bulls have been run in large mobs all their life, so they have had plenty of mates around, and have never been alone.

It is a good idea to have some of your own cattle in the yard when your new bull or bulls arrive, a handful of steers or some PTIC cows or even an old bull, just something to keep them company, whilst they survey their new surroundings.

At Bowen, we handle our cattle quietly and confidently, we always give our cattle respect, and our cattle respect us. We use a 4-wheel motorbike and a ute, with controlled use of dogs.

The bulls have not been handled with horses.

Handle your new bull or bulls quietly and with respect and he will settle into his new home well and will be easy to handle when the need arises.

The bulls are in good joining condition at point of sale, but it is imperative to ensure good nutrition for the bull during the joining period. You should check the bulls regularly to see they are working especially in the early stages of joining when the majority of problems occur and early intervention can minimise the damage to the bull and to conception rates.

When joining is complete bulls should be drenched and placed on good pasture to get back into first grade health without being allowed to get too over fat or too poor condition.

Arrange transport of livestock at your expense.

SALE DAY SAFETY

All the sale Bulls have been screened for temperament and are quiet to handle under normal circumstances. However, there are inherent risks associated with cattle handling.

People entering the yards are at risk of injury. We do not expect the Bulls to be aggressive with humans, but sale day places extraordinary pressure on them as they experience an entirely foreign environment.

Do not crowd the Bulls or loiter inside the pens. We cannot cover every example of the dangers of cattle handling, so please use common sense and be alert at all times. Don't enter the pens unnecessarily. If you feel threatened whatsoever, please do not act hardy.

Please call upon any of the agents for an escort through the Bulls if required. The days of bravado with stock have passed under current OH&S legislation.

Visitors Enter the cattle pens at their own risk.

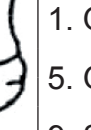

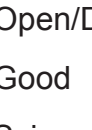

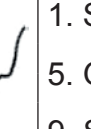

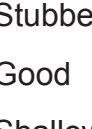

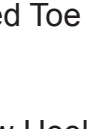

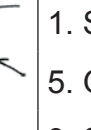

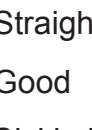

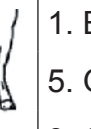

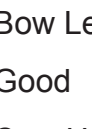

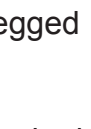

CHILDREN UNDER 16 YEARS OF AGE ARE NOT PERMITTED IN PENS.

Disclaimer:

Animals details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EVB's) and Index values, are based on information provided by the breeder or owner of the animal. whilst all reasonable care has been taken to ensure that

the information provided in this catalogue was correct at the time of publication, neither vendor Angus Australia, The Hereford Society, or the selling agents assume any responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

EXPLANATION OF THE BEEF STRUCTURAL ASSESSMENT SYSTEM

TRAIT	KEY	SCORING RANGE									
Claw Set - FRONT Claw Set - REAR	FC RC										1. Open/Divergent 5. Good 9. Scissor Claw
FRONT Feet Angle REAR Feet Angle	FA RA										1. Stubbed Toe 5. Good 9. Shallow Heel
Rear Legs Side View	RS										1. Straight 5. Good 9. Sickle Hocked
Rear Legs Hindview	RH										1. Bow Legged 5. Good 9. Cow Hocked

The Beef Class Structural Assessment System uses a scoring system of **1 to 9 scoring for feet and leg structure**. A score of **5** is ideal but a score of **4 or 6** includes a slight variation but this would most acceptable in any breeding program and would include most sound animals. A score of **3 or a 7** shows greater variation and indicates a greater variation from ideal. A score of **1 or 9** would be considered a cull and not catalogued.

Scrotal: measured in cm's

Temperament: The temperament score, scores animals **1 to 5** with a score of **1** being ideal (docile) a score of **3** is less ideal (restless) and a score of **5** is aggressive or very agitated (scores of **1 and 2** are preferred)

Sheath and Navel Score: The sheath score indicates the tightness of the sheath **5** is clean tight and **1** is loose and undesirable.

Sheath and Navel	SN						1. Pendulous 3. Good 5. Clean/Tight
------------------	----	---	---	---	---	--	---

Structural Assessment Table Example:

STRUCTURAL ASSESSMENT								
CLAW SET FRONT	CLAW SET REAR	FRONT FEET ANGLE	REAR FEET ANGLE	REAR LEGS SIDE VIEW	REAR LEGS HINDVIEW	SCROTAL (cm)	TEMP.	SHEATH
								

All registered bulls in this catalogue have Genomic enhanced data evaluations & have been verified to their sires.

NOTICE TO BUYERS

Our bulls have been running in groups in the leadup to the sale, below is the mobs that are mates & used being run together. This may help to eliminate bulls fighting when they arrive at their new home.

Poll Hereford LOT 1 – is a single bull

Poll Hereford LOTS 2 to 40 – Live together

Angus MOB 1 LOTS (42 to 64), (84 to 91), & (113 to 120) - Live together in a mob.

Angus MOB 2 LOTS (65 to 72), (92 to 100), & (121 to 130) - Live together in a mob.

Angus MOB 3 LOTS (41), (101 to 112) & (131 to 141) - Live together in a mob.

Angus MOB 5 LOTS (73 to 83) - Live together in a mob.

HEALTH NOTES

All bulls have been treated with:

• **Tick Vaccinated**

- 2 x 7 in 1
- 2 x Vibrio Vax
- Longrange - botulism vaccination
- Zoetis Rhinogard
- Bovishield MH One
- Dectomax pour on

Pestivirus: All Bulls have been tested P.I. Free (persistently infected). All bulls have had 2 x Pesti Guard Vaccinations.

BEF: All bulls have been vaccinated for 3 Day Sickness.

Johnes Biosecurity Plan: Bowen is under the JBAS Level 6 Biosecurity plan

zoetis

All bulls are
QLD ready &
have been Tick
vaccinated.

LOOK FOR THE SIGN BUY WITH CONFIDENCE

All bulls in this sale have been vaccinated for clostridial diseases, leptospirosis, pestivirus, vibriosis and infectious bovine rhinotracheitis (IBR). They have also been tested for pestivirus and are not persistently infected.

Other regionally important vaccines may have also been administered to enhance protection.

A National Cattle Health Declaration will be provided.

COOPERS

THE ENTIRE PROCEEDS FROM ANGUS BULL - LOT 41 TO BE DIVIDED EQUALLY BETWEEN THE FOLLOWING FOUNDATIONS:

STUART PEAKE MEMORIAL CANCER RESEARCH TRUST

The Stuart Peake Memorial Cancer Research Trust was established in 2003 in memory of the late Stuart Peake, the founding principal of the Bowen Poll Hereford and Angus Studs. The Late Stuart Peake fought a long battle against the cancer Non Hodgkins Lymphoma.

The main objective of the trust is to donate the income generated by the trust investments to the cause of cancer research.

Since 2003 the trust has donated approximately \$54,000 to cancer research and the trustees intend to continue donating to cancer research not only for Non Hodgkins Lymphoma but all forms of this disease for years to come.

If you would like further information or to donate, please contact: David Kelly on 02 67821403
Email kelly@djkelly.com.au

Ruby Mae's Wish

Ruby Mae's Wish was established by Nick and Kim Peake (Ruby's Parents) after the unexpected tragic passing of Ruby (forever 4), to honour their beautiful daughter. Ruby always told people that she wanted to be a doctor (or a mermaid) so the main objective of the charity is to raise funds for Childrens Hospitals to purchase vital equipment or fund education, to help the doctors and nurses care for sick kids. In this way we believe that Ruby's spirit and caring nature can live on through helping others.

For more information or to donate please visit www.rubymaeswish.com.au

Westpac Rescue Helicopter Service

Proudly here for the people of Northern NSW

Since 1975 'community' has been at the heart of our Service, it's why we've long been proudly known as the "Community's Own" Westpac Rescue Helicopter.

For over 45 years, thanks to the generosity and support from people right across Northern NSW, the Westpac Rescue Helicopter has grown to become a vital 24-7 aeromedical operation. Community fundraising and strong partnerships has always been integral to ensuring the quality, reliability and sustainability of our operations continue. Every life we save and every person we assist, provides a reminder of the critical role we play in our community. For more information or to donate please visit

www.rescuehelicopter.com.au

LOT 1 **BOWEN VERMILLION V116 (PP)** **BWNV116**
 Born: 20/7/2024 POLL C-Homozygous Polled (PcPc),IEF,HYF,DLF, Eye Pigment: 100-100 Brand: V116

BOWEN NOTORIOUS N245 (AI) (PP)
SIRE: BOWEN SOLOMAN S009 (AI) (PP)
 BOWEN MAPLE P228 (PP)
 BOWEN MAGISTRATE M241 (AI) (PP)
DAM: BOWEN ADVANCE Q030 (P)
 BOWEN ADVANCE J123 (P)

Notes: Vermillion V116 exhibits a powerful sire's presence & outlook. He is well grown, has excellent structure & fantastic temperament. We think a lot of this bull, and we used him over 47 cows as a yearling in a trying season. He covered the mob and has maintained his weight well. His pedigree is littered with outstanding cows. His data offers very high 200, 400, 600 day weight data. We have retained semen from this bull.

DAM: BOWEN ADVANCE M28 (AI) (P)
 BOWEN ADVANCE K62 (P)

Notes: This Southern Cross S15 son exhibits perfect cosmetics. He is a smooth fronted, well grown, solid bull with a terrific nature. With a highly ranked set of data analysis featuring fantastic calving ease, high growth & marbling - one of the best data sets I have seen. It is rare to find a bull with both phenotype & data. His maternal brothers have sold to a top of \$20k at previous Bowen Bull Sales. We have retained semen from this bull.

6	5	5	6	5	5	40	5	4

Notes: Vocal V135 has a stack of volume & excellent length of body with a soft slick skin. A well-bred bull with balanced data credentials, short gestation, low birth weight & high marbling. His maternal granddam, Katie N050, has produced several bulls that have sold to a top of \$20k at previous Bowen Bull Sales. V135's pedigree is bred to perform on the hook. He had the highest IMF in his mob at 600 day scanning & third highest 600 day weight in his mob.

6	5	5	6	6	6	40	5	5

Notes: A Porter P259 son with the signature soft slick skin that Porter replicates in his progeny. He is a big strong bull with a smooth, laid in shoulder. Vegas V132 has the impeccable female lines of Florrie F23, Irish Girl J269 and a double cross of Katie D236 featuring in his pedigree. All these females have been phenomenal breeders. Porter is a marbling sire with absolute weight gain performance. At 600 day scanning he had the equal third highest EMA in his mob.

 KCF BENNETT REVOLUTION X51 (IMP USA) (P)
DAM: BOWEN RUTH M190 (AI) (ET) (P)
 BOWEN RUTH E321 (AI) (P)

Notes: Vivid V53 will put that extra stretch into his progeny. He rates highly for marbling & 200 day data. This is the third son from Ruth M190, who is the half-sister to Mastermind M314, to be offered at a Bowen Bull sale. Granddam Ruth E321 was a top donor cow. We purchased Sea Biscuit S114 in 2023 for \$40k, his quality & softness took our eye at the sale and this year we have the first of his progeny for sale.

Notes: Everest V323 has exceptional growth, carcase weight and EMA data. He had the third heaviest weight and second highest EMA measurement at 600-day scanning in his mob. He has highly sought after bloodlines on both sides of pedigree that include the Lowan and Tentura cow families, and his grand sire Milwillah Krakatoa N426 has consistently produced high priced sons at previous Bowen bull sales.

WITH

BOWEN GENETICS

BOWEN FUTURE OF BEEF CONFERENCE 2026

We decided to hold a conference this year for our clients in Tamworth NSW in May 2026. It was an opportunity to get together with fellow breeders & be informed by three inspirational guest speakers that are highly respected & knowledgeable in their individual fields of expertise.

Michael Crowley
MLA Managing Director

– spoke on current beef trends & market demands.

Isobel Knight

Director of Proagive Succession Planning
– Isobel is a succession planning specialist and has been the founder and director of Australia's leading family farm succession planning business Proagive for more than 20 years.

Defining the Premium Standard

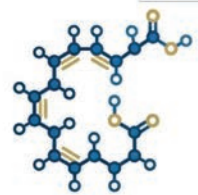

Taste
(Intramuscular Fat - IMF)

The primary driver of palatability, juiciness, and consumer satisfaction.

Texture
(Fat Melting Point - FMP)

The index of fat hardness. Lower FMP yields a superior, melt-in-the-mouth sensory experience.

Health
(Long-Chain Omega-3s)

Essential polyunsaturated fatty acids (EPA, DHA, DPA) vital for human cardiovascular health and disease prevention

Professor Aduli Malau-Aduli

Marcias Australia & University of Newcastle

– Meat Scientist ranked as being in the top 2% of the world meat scientists. He had an in-depth discussion on the revolutionary discovery of genetic SNP markers for marbling, fat melting point & omega-3 acid profile in the Peakes Bowen Angus, Poll Hereford & Wagyu cattle that he has been testing over the last seven years.

Further information from the

BOWEN FUTURE OF BEEF CONFERENCE 2026

will available our Bowen Webpage: www.bowenstud.com.au in coming weeks - including videos from the day, interviews, & the Q & A that was conducted at the conclusion of the day.
